The Marshall home at 1019 Florence place was the scene of a pretty dancing party on Saturday evening, arranged as a farewell to Mrs. Emma Franklin, who is leaving for Santa Maria.

Carnations and roses were used by the hostess in the decoration of her home for the affair, and refreshments were served at the close of the dance program.

Those having the pleasure of the evening were Messrs. and Mmes. Roy Myers, Cecil Rider, Wilfred Parker, Vincent Brown, Mrs. Agnes Stark, Misses Ethel Stark, Nora Hamlin, Thelma Foster, Messrs. Winfred L. Baker, Willard Clark, Frank Marshall, Al Letwig, Ray Marshall and Master Ray Parker and the hostess, Mrs. Marshall.

### HIKE OF GIRL SCOUTS

Miss Gladys Sharpe is planning to chaperone a party of 16 girl scouts to Roberts Canyon next week. The girls are counting much on the trip which will be a real vacation treat.

## CLARA HAMON MURDER TRIAL DRAWS TO CLOSE

Every Available Inch of Space Jammed With Murder Trial Fans—Near Riot Interrupted—Prosecution Attacked Reputation of the Defendant's Mother

By MILDRED MORRIS  
I. N. S. Staff Correspondent

COURTROOM, ARDMORE, Okla., March 15.—With every inch of available space jammed by murder fans the Clara Smith Hamon murder trial hurries to a close today. Attorneys for both prosecution and defense agreed that the case would reach the jury some time tomorrow. The defense expected to close its case today after Clara Smith Hamon has taken the witness stand. The courtroom, presented a battered appearance when court opened. The charge of the "gallant five hundred" had won that number of seats, while just as many other fans, losers in the charge, had to be contented with standing room in the corridor.

A near riot interrupted the trial shortly after it convened this morning when murder fans staged a demonstration against the prosecution.

Attorneys for the prosecution, while interrogating a witness, attacked the reputation of the defendant's mother. "The old mother of this defendant is as good an old woman as any who

ever bore a lawyer," shouted W. P. McLean of the defense counsel.

The courtroom was in an uproar. Murder fans arose in their seats, shouting angrily and making gestures at the state's counsel.

Judge Thomas W. Champion then ordered the courtroom cleared. The aged mother of the defendant broke down, sobbing uncontrollably. A moment later the pretty defendant burst into tears. She had to be led from the courtroom.

Bailiffs meanwhile fought with the crowd, shoving every person out of the courtroom.

### Hayward to Attend Hearing

E. P. Hayward, chairman of the railroad and public utilities committee of the Chamber of Commerce and members of his committee, will attend the hearing of the railroad commission in regard to telephone tolls which takes place in Los Angeles on Thursday.

## INTERMEDIATE PARENT- TEACHERS' ACTIVITIES

City Manager Watson Addressed Them on Proposed Bond Issues for City Water; Next Theme "After School What?" Interest Shown in Recreation

Of exceptional interest was the meeting of the Intermediate Parent-Teacher Association on Monday afternoon at the school, over which Mrs. H. V. Brown presided.

Items of business included announcement that Mr. de Groot, district executive of Boy Scout organizations, will address the association at its next meeting, his theme being: "After School—What?"

Miss Noble, principal of Intermediate, announced a special offer on the part of the management of the Mission play to admit school children of Glendale at a very much reduced price and to provide trolley cars to convey them direct from Glendale to San Gabriel if the school authorities would set a day for the trip. Miss Noble said that on account of the vacation next week it was considered a favorable time for the children to see this instructive drama and that Tuesday had been suggested as the best day for the journey. She asked that mothers who would be willing to accompany the teachers and children as chaperones, to raise their hands, and several ladies responded.

The very satisfactory report of the cafeteria committee was submitted and showed that \$359 of the \$400 pledged had been raised and turned in to the school trustees to defray the cost of equipment.

City Manager Watson addressed the

association on the proposed bond issues for the city water distributing system, for city store houses, parks, and a recreational center, making very clear the need for all the things for which electors will be asked to vote in the coming election.

Richardson D. White, as the chairman of the committee named by the Chamber of Commerce to promote the issue for a recreation center in which he is deeply interested, also addressed the association, naming the reasons most appealing to mothers why the city should provide this building in some central location where it can be used by the youth of the city seeking amusement.

After reciting the reproach that had been cast upon young men by certain carping critics for loitering on the street corners at night, he said:

"They say that you can tell more about a man's character from the way he spends his leisure than you can from the hours he spends in vocational work. The leisure time of boys and girls is the time we, as a community, ought to take care of. We owe it to them as much as we owe it to them to provide good schools."

"We have in connection with our common schools about 40 acres in school grounds. They are used during the school working day and that is all. They are not used in the late

### RED CROSS SEWING BEE FOR BABIES

Women members of the Glendale Chapter, American Red Cross, are meeting tomorrow (Wednesday) for an all-day sewing bee at the home of Mrs. David Gregg, 240 North Central avenue, from 10 to 4 p. m. They will bring sandwiches for their luncheon, which will be supplemented by hot coffee served by the hostess. An effort will be made to complete the consignment of garments for naked babies of Central and Western Europe which the chapter has undertaken to supply and which are urgently needed. Every Glendale woman interested is urged to come.

J. C. Pyle of 108 East Chestnut street has returned from a business trip to Arizona.

## ALLIED NOTE DESIGNED AS ANSWER THAT THE ADVANCE OF THE ALLIED TROOPS WAS JUSTIFIED—DRAFTED TODAY

By NEWTON C. PARKE  
I. N. S. Staff Correspondent

PARIS, March 15.—The reparations commission today drafted a note to Germany, declaring that the allied military and economic penalties were legally justified under the treaty of Versailles, because Germany had not paid the amount of money pledged under that covenant.

This allied note was designed as an answer to the German contention that the advance of the allied troops on the Rhine nullified the peace treaty.

The document was drafted at a meeting of the reparations commission this morning. It pointed out that Germany had paid less than one-half of the 20,000,000,000 gold marks due from her (under the terms of the treaty) by May 1.

The argument that the amount had been fully paid was rejected.

Dr. Walter Simons, the German foreign minister, in a speech at London, offered the Allies 50,000,000,000 gold marks indemnity. He contended that Germany already had paid 20,000,000,000 gold marks, leaving 30,000,000,000 gold marks to be paid in the future.

The present military and economic penalties imposed by the Allies upon Germany are incapable of giving France the amount of reparations due her, according to former Premier Poincare in an article printed in the press today.

"The total of the Rhine customs will not exceed 500,000,000 gold marks annually," said M. Poincare. "At the end of ten years we will find ourselves far from being reimbursed. It is difficult to guess the results of the export tax. The only present valuation of the sanctions is the coercive power they give. If we want to be paid we must take other steps."

## DARING BOY THIEF AGAIN AT LARGE

Don Clauser, a boy still in his teens, who began a remarkable career of crime in 1917 when only 15 (and by the way, he is still at that age according to Los Angeles morning papers), and has spent most of the time since then in the reform school at Whittier when not fleeing from officers of the law, is again at large, having justified his name of "the human eel" by escaping from the Whittier institution. He is a connoisseur in automobiles, having stolen several in his brief career, always picking high-priced cars. One of his early escapades was in Glendale. Accompanied by a boy companion whose name he refused to divulge, he came out here one morning, hired two saddle horses of Mrs. Weston at the Glendale stables, and went for a ride. Not returning when expected, a search was made for the two boys and it was found they had abandoned the horses near Van Nuys after stripping them of saddles and bridles. They then stole an automobile, made a trip to the beach, and then drove out here, where Don was arrested, his companion having left him. He was held in the city jail all night and then agreed to go with Chief Lampert to locate the horses, which were still missing. The party went to Van Nuys, found the horses, and while the officers were getting ready for the return, Don gave them the slip. They chased him all through a ten-acre apricot orchard but he eluded them, stole an auto and headed for Santa Monica. There he was arrested. When jailed, he escaped and stole another auto, but was soon apprehended. Then he was sent to Whittier and the reform school held him until Saturday night, when he made his escape, stole the superintendent's auto and got away with it.

### SPECIAL MEETING OF CARNATION LODGE

A meeting of special interest is planned for Carnation Rebekah Lodge to be held this evening in Odd Fellows Hall. A short program will be followed by team work and refreshments will be served. Mrs. F. A. Anderson is chairman of the committee on entertainment, which also includes Mrs. John Maloy and Mrs. A. H. Hartley.

## MRS. MARY F. ORR PASSES AWAY

Mrs. Mary F. Orr, a resident of Glendale for some time, passed out of this life on March 11, aged 48 years.

There are left to mourn her loss her husband, William J. Orr, two sons and one daughter. The children are grown up and all reside in Los Angeles. Funeral services will be held this afternoon at the chapel of the L. G. Scovern undertaking company this afternoon, and interment will take place in Sunset cemetery, Sawtelle.

## NEW SECRETARY OF C. OF C. ACTIVE

Matters of routine are gradually shaping themselves satisfactorily at the Glendale Chamber of Commerce headquarters.

Secretary Rhoades has entered upon his new duties with enthusiasm and a carefully worked-out plan, and is systematizing the work in proper, business-like manner.

One of his prospective plans is a register of newcomers. Another is the installation of an exhibit of Glendale's products, agricultural, mineral and manufactured, as well as an exposition of the city's prospects and possibilities.

The board of directors of the Chamber of Commerce is holding a meeting today. They are equally as full of zest for the work of Glendale's development as Secretary Rhoades is.

### 'RICH GIRL, POOR GIRL' AT GLENDALE THEATRE

Two distinct roles, characters diametrically opposed to each other, are played by Gladys Walton, starring in "Rich Girl, Poor Girl," at the Glendale Theatre tonight, and she portrays each character as clearly as if it had been written to suit her charming personality. Yet one role is that of a girl of the slums, the other, that of a pampered child of wealth.

The theme of the play lends itself to dramatic situations of great possibilities, as Nora McShane, a girl of the slums, Miss Walton touches the profoundest depths of abject poverty.

A furious fight between rival gangs of thugs, a thrilling abduction, the confusion of identities and a romantic love, are the outstanding features which will keep theater-goers on the edge of their seats during every second that this story is unfolded on the screen.

A particularly good cast supports the star. It includes Antrim Short, Harold Austin, Gordon McGregor, Joe Neary, Wadsworth Harris and C. W. Herzinger.

Miss Walton will appear in person at the Glendale Theatre this evening just after the first performance.

The same program is featured again tomorrow.

## MRS. LEONARD PASSES AWAY

The angel of death entered the Bacon home at 461 Myrtle street yesterday, and bore away with him the patient soul of Mrs. Elizabeth Leonard.

Mrs. Bacon's mother, aged 82 years, who had been a sufferer for some time. Funeral services will be held on Wednesday afternoon at 2:30 in the chapel at the Jewel City Undertaking Parlors, and the interment will take place in Forest Lawn cemetery.

### DO NOT FORGET J. W. FOLEY EVENING

James W. Foley, our Eagle Rock neighbor and poet of the people, is to be in Glendale at the Masonic Temple on March 18 and the date should not be forgotten, as he is a charming entertainer. He comes under the auspices of the literary section of the Tuesday Afternoon Club, and the receipts from his readings will be a benefit for the clubhouse fund, in which every member is so deeply interested.

W. R. Blair spent the week-end with his family at 1607 Gardena avenue. He is repairing gas houses at Glen Ranch, in the San Bernardino mountains, and is also building a swimming pool, bath house and office there. The work is likely to occupy him for a couple of months.

## COUNTRY GROANS AS THE CHECKS DROP

According to the Congressional Framers the Income Tax Will Stand for the Time Being In Spite of Howling Chorus

By GEORGE R. HOLMES  
I. N. S. Staff Correspondent

WASHINGTON, March 15.—The groans that are going up all over the country today as belated tax checks

are dropped into the federal treasury are penetrating Washington. But more penetrating still is the insistent demand for more revenue to meet the burden of governmental expenditure.

The taxation and tariff legislative experts who are now engaged in trying to whip into shape a program of revenue legislation for the new 67th Congress, which meets April 11, offer little hope that the income tax law will be materially modified under the new regime. The income tax law is working smoothly, much more smoothly than some of the other features of the present tax law, and they plan to leave well enough alone. Attention instead will be paid to the correction of the excess profits and surtaxes.

As for the small salaried man, he can look forward to paying the government four per cent of his income for some time yet, according to the congressional tax frames. It is the belief of framers or legislation as

well as the treasury experts that neither will the percentage of taxation be decreased or the individual exemptions be raised by the new congress.

Representative Joseph W. Fordney, of Michigan, chairman of the ways and means committee, which has the forthcoming legislation in charge, said today he could see no relief coming for the small salaried man in 1922.

### TO GIVE DINNER FOR MABEL HORNER

Friday afternoon Mrs. R. C. Horner of 240 North Belmont street, is giving a St. Patrick dinner for her daughter, Mabel. A green and white color scheme will feature the decorations, and the evening will be devoted to appropriate games. Guests will be: Dorothy Humans, Frances Bourne, Pearl Dean, Dorothy Godard, Alberta Plasterer, Marjorie Current, Virginia Horner and her sister, for whom the party is being given.

## BIG INDUSTRY FOR GLENDALE PLANNED

Hydro-Stone Company Desirous of Locating Its Parent Plant for Southern California at Doran and San Fernando

If the plans of the Hydro-Stone Company, of which Thomas M. Park is president and Hugh H. Scott vice president and treasurer, materialize, Glendale will have another important industry and those who have "dreamt they dwelt in marble halls" may have a chance to see their dreams materialize. The exhibit in the window at 104 East Broadway gives more than a hint of the process which the gentleman named have secured the right to use in Southern California and for which they are now organizing a manufacturing corporation. Briefly, the blocks are of concrete, patterned after the hollow tile blocks which have proved such a success, but these have an advantage in that they are bonded every nine inches vertically and every nine inches horizontally in such a manner as to leave breaks in the contact which prevent any passage of moisture from the outer to the inner wall and which also serve as an insulation against heat and cold. In other words, the promoters claim that houses built of this material are warmer in winter and cooler in summer than those of either stone or wood.

But the feature of special interest to the public is the outer surface. The blocks are given a facing made from crushed granite, agate or marble. While the concrete is in a semi-fluid state this rock facing, which comes in a variety of colors, is laid on and a

pressure of 150,000 pounds is applied, which makes it as much an integral part of the hydro-stone as though fused by the forces of Nature. The greater part of this microlithic stone comes from Western Texas, where there are pigmatic deposits containing bronze mica which can be used in combination with the granite to produce a very showy effect. The crushed marble is a California product. While of fine quality, the deposits are not such that they can be mined in blocks. For this use, however, they can be obtained cheaply and make a very beautiful facing.

These facings render possible almost a rainbow of colors, as the pigmatic comes in rose, purple, red and white. The promoters are anxious to locate their plant in Glendale for several reasons. First, the fact that Glendale has a record for being the fastest growing city in the United States, makes it an alluring field, but, second, the site they are considering at the corner of Doran and San Fernando road will enable them to get from the wash a fine quality of granite sand, and it will also be conveniently located with reference to Pacoima Canyon, from which they expect to draw supplies of crushed granite.

To finance the company, which is capitalized at \$50,000, it will be necessary to sell about \$20,000 of stock to

## OUIJA SPELLS THE THIEF'S NAME

(By International News Service)  
EVANSTON, Ill., March 15.—The \$5000 limousine of Mr. and Mrs. Edwin A. Watson is back in the Watson garage again and the ouija board gets all the credit.

For months Mrs. Watson had not been on speaking terms with the astral smart set. Her ouija board, forsaken and forlorn in a dusty corner of the attic, almost had succumbed to sleeping sickness. Then the limousine was stolen. And for days the Evanston police and private detectives were baffled. One morning Mrs. Watson was musing for the thousand and first time. "I wonder who stole that car? I won't."

She dropped the grapefruit spoon and tossed her napkin on the table. She clasped her hands. Her eyes lighted.

"Ed, dust off the ouija board. And telephone the chief of police. My fingers tingle. It's a call. Hurry! We're going to find him. I feel it."

Mr. Watson executed both commands. Mrs. Watson had just poised her fingers to receive the long-distance cosmic call when Chief Charles W. Leggett arrived.

"Who stole our auto, ouija?" asked Mrs. Watson.

"Charles Yatez."

Mr. Leggett, who doesn't believe in Santa Claus or spirits, blinked.

"Who's he?" he asked.

"Who's he, ouija?" Mrs. Watson asked.

"It's him," the board is said to have replied.

"It's he," Mrs. Watson explained. "Apparently that's all we can get right now."

Mr. Leggett cranked the police flier and fared forth to find Charles Yatez. Just west of the Davis street viaduct he encountered a limousine that strikingly resembled Mr. Watson's.

"You're Charles Yatez," said Mr. Leggett.

"I'll bite. I'm Charles Yatez."

"You're pinched."

"Why?"

"You stole that car."

"I did not."

But at the police station Mr. Yatez was confronted by the ouija. He confessed.

"What I want to know," demanded

Mr. Yatez, "is the name of the guy that squealed to that ouija?"  
Mr. Leggett manipulated the little triangle. Slowly it spelled out:  
"He doesn't know."  
"He don't know," repeated the chief.

## C. E. SOCIETY MEETS WITH PHOEBE SNELL

Monday evening, March 14, the young people of the Tropico Christian Endeavor Society met at the home of the president, Miss Phoebe Snell, 116 East Euclid street.

After the regular business meeting, the officers for the next year were elected: Nancy St. Clair, president; Sara-Faye Snell, vice-president; John Server, treasurer; committee chairman—Margaret Richardson, missionary; Georgia Thompson, social; Phoebe Snell, prayer meeting; Ruth Goldsborough, music; Helena Richardson, secretary; Walter Sullivan, lookout.

Following the election there was an enthusiastic showing of members who are planning to go to the county Christian Endeavor convention at Whittier, March 18 to 20. Among these are: Norma Wallace, Helena Richardson, Dorothy Thompson, Georgia Thompson, Margaret Richardson, Janice Kelly, Carol Duncan, Reba Richardson, Ruth Goldsborough, Frances Goldsborough, Nancy St. Clair, Phoebe Snell and Harry Richardson.

This evening the Endeavorers expect to go to the First Presbyterian Church to practice the Glendale booster songs to be sung at Whittier, and also to make miniature sombreros which will advertise Glendale and the coming state convention.

## REV. EDMONDS MAKES TWO HAPPY

John L. Jessup and Miss Louise Jacque of Santa Ana were united in marriage by Rev. W. E. Edmonds, Monday evening, at the manse, 121 South Cedar street, at 5 o'clock. The ring ceremony was used and the witnesses were Mrs. Laura Mitchell and Mrs. W. E. Edmonds. Mr. and Mrs. Jessup left inmediately after the ceremony for their home in Santa Ana.

The largest gulf in the world is the Gulf of Mexico, with an area of over 800,000 square miles.

## Too Busy to Attend to Government Affairs

Dr. W. E. Edmonds, pastor of the First Presbyterian Church, took for the theme of his sermon last Sunday the parable in Judges 9:8-15, in which the men of Israel are exhorted to take a disinterested interest in government affairs. Dr. Edmonds' sermon contains an application of the parable of old to the affairs of today. A resume of his discourse follows:

### The Bramble King

"All true citizens, especially those who expect to 'run' for office, should not fail to read Judges 9:8-15. This story is not out of date, but is far ahead of many so-called modern and up-to-date men and women.

"The interpretation to the men of Israel was not difficult. Jotham said, 'O men of Israel, you have been too busy to attend to governmental affairs.' Many offered excuses, hence a mere bramble of a man has offered himself: 'Come, trust in my shadow.' However, he cannot offer either timber, fruit or shade. The parable has its present day application, and fits into the political conditions of today. This government lays great responsibility upon the shoulders of those who hold the ballot.

"The people go to the merchant and say, 'Come thou and reign over us.' The merchant replies, 'I cannot leave my fatness, for I am hourly engaged in making money. I am too busy to take any part in politics.' The call is then made to the professional man: 'Come thou and reign over us.' He replies, 'I cannot leave my sweetness, my clients, my patients, my pupils, I have no time or strength for such a campaign.' They then turn to the man of ease: 'Come thou and reign over us.' He replies, 'I've worked hard and I'm going to take things easy now.' Whereupon the bramble says, 'Come, put your trust under my shadow.' He climbs into power and gives to the people neither timber, fruit nor shade. The indifference upon the part of good men and women in civic affairs is simply appalling. Why complain about conditions, when so many take no part in civic affairs?

"Who's to blame? Why, the preachers, of course. What do they know about affairs? They are not practical men, anyway. What business has a preacher in politics? Let him preach the gospel in his own pulpit and then vanish away.

"The preacher is a citizen and should take a leading part in civic affairs because of the great opportunity which he has. Once in a while there is a preacher who is a bramble, but not often.

"The laymen are not blameless. Many shirk their duty simply because there is nothing in it. Put a big enough price upon the office and they will rush into power. Thank God there are some men who cannot be bought. Some men who are not afraid to say

their soul is their own. Business men, for the sake of their own interests, need to look out for the 'bramble king.' How can he be dethroned? Pessimistic whines will not do it. What does the bramble king care for that? He cannot be dethroned by mere sneers. The ballot is the only thing he fears. The side that gets the most votes is the side that wins, hence if a man cares, he will show his interest by his vote. Often the vote in an indication of the real character of a man or woman.

"Don't say politics are dirty, folks may think you are a Pharisee. No duty is too dirty for any clean man to take up. The muddier the pool the more urgent for someone to help clean it up. Don't say you will be misunderstood, folks will think you are a coward. Don't say you haven't time, folks will think you are selfish. No man can lay claim to being a good citizen who does not do his full duty at the polls. The devil never fails to vote.

"Much can be accomplished by the vote. Justice can be established. Health can be safeguarded. Crime can be reduced.

"What is the ballot? It is a sword with which great evils can be cut down. It is a battering ram by which established wrongs may be brought to naught. It is a cannon-ball by which oppression of the bramble king may be ground to powder. It is a nerve, a will, a purpose, a heart to work for the best for God and home and native land.

"The local situation as touching the election for high school trustees is now and always will be one of great interest. The high schools must always stand for the best not only educationally, but the highest standards of discipline must be enforced, and true morals must be preached and practiced. To this end the Federated (church) Brotherhood has endorsed Capt. Watson and Dr. Harry Brown as good men, and well fitted for the office named. They did not seek the office, but responded only after the earnest appeals of many good citizens. They are worthy of support.

"The new charter should by all means be adopted. It is the best instrument ever presented to our people for a strong and practical form of government.

"The need of a civic center speaks for itself, and all who have the best interests of the city at heart, will support this proposition with no little enthusiasm. The need of public parks is certainly apparent. Our city officials have gone over the entire situation and while they do not offer all we could wish for, certainly this is a first rate beginning, and we should be loyal in our support of the measure.

"Don't be a bramble. Let's give the people timber, fruitage and shade."

L. S. stamped on legal documents stands for the Latin "locus sigilli," meaning "place of the seal."

## VETERAN ENJOYS CAMPFIRE SCENE

N. P. Banks Post and Corps continue to hold an advanced position in patriotic circles of Southern California. Their campfire of March 12 was one, indeed. Their reproductions of old war scenes, true to reality, presented to a public accustomed to the up-to-date fake stunts; put over by the free use of dummies, to picture impossible feats, thereby bringing injury to the plastic mind of the greedy juveniles, cries to high heaven for endorsement by the public. It is impossible to estimate to what extent this has already reached in corrupting public morals and forcing upon the world the vast increase of crime within the last decade. "Honesty is the best policy."

"Truth is stranger than fiction," but "right will prevail." The lapse of nearly 60 years has befogged the memories of some of the veterans so that they are astonished when they endeavor to perform what was once their frequent practice. Although the environments were far short of the requirements the acts of the veterans in connection with appropriate songs by the G. A. R. Glee Club, led by Comrade Hernden, and bugle calls by one of the late war's best buglers, made it a campfire difficult to duplicate.

## EAGLE SCOUTS HIKE TO CAMP BALDY

Eagle Scouts of Troop No. 2 are planning to spend a portion of their Easter vacation at Camp Baldy. They will leave Glendale next Saturday morning and go by auto to San Antonio Heights, and from there hike to Camp Baldy, where reservations have been made for them at the hotel. Their plans include a day's sport Monday in the deep snow of Ice House Canyon. Tuesday will be toboggan day, with snowball battles staged on the side. Every night they will gather around the big fireplace at the hotel to tell stories of adventure. The moon will be full next week, and, weather permitting, they will make a moonlight hike to some scenic point.

The boys expect to be away four days and the trip is a kind of celebration of the attainment of the high rank of Eagle Scout. They are, in fact, the aristocracy of scoutdom, although they are not forgetting the slogan and first principle of their organization: "Service."

## REAPPORTIONMENT OF DISTRICTS

If Not Decided at This Session People Will Vote Upon the Question

By J. BART CAMPBELL

(By International News Service)

SACRAMENTO, March 15.—That no definite time had been fixed while he was in Washington for congress to take up the question of reapportionment is the word brought by Henry Z. Osborne, Representative from the tenth district of California who made a brief call upon Governor William D. Stephens during the week-end. Osborne had been visiting one of the members of his family and was on his way to Dunsmuir when he stopped off in Sacramento to exchange greetings with the governor.

If the reapportionment of congressional districts is not decided until after the present session of the legislature, or a special session is not called, the people of this state will vote at large upon the question of filling the new places created by congress.

Some of the legislators of the northern cities and counties—districts that stand to lose in the state reapportionment—would prefer to have the whole thing go over until congress acted. There is a prospect that reapportionment of the assembly and senatorial districts will be undertaken after the budget and reorganization issues are out of the way.

Today the budget hearings were resumed with the department of agriculture's representative, Mr. George H. Hecke, as the first witness for the people. Clyde L. Seavey, of the board of control, made a brief statement on the budget appropriations and then the senate plunged into the agricultural items.

## MRS. JAKE HAMON ON WITNESS STAND

ARDMORE, Okla., March 15.—Mrs. Jake Hamon widow of the slain oil magnate and politician, was called to the witness stand late today in the trial of Clara Smith Hamon. The witness maintained complete composure as she began her testimony.

Attired in a low-necked frock she talked in a low voice but distinctly. She told of two visits to Hamon's hotel suite.

"The second time I went, she was there," said the widow. "She ran when she saw me. There were several pictures of him on the dresser. I took them with me."

"Did you look in her trunk?" the counsel asked.

"I did. I found a gun and took it away."

The witness was excused without cross examination. The defense then opened its case.

Sheriff Garrett, called by the defense, proved a boomerang to previous testimony offered by the State on what Hamon had said on his death bed.

"I talked to Hamon," the sheriff said. "He said he shot himself accidentally when the gun went off."

Questioned further the sheriff denied that Dr. Hardy, the Hamon physician, had insisted until the last hour that Hamon had shot himself.

## PAGEANT DRAMA OF CAMPFIRE OF 1861

The all-day campfire which N. P. Banks Post held Saturday is one which will linger long in the memory of its members and of the W. R. C. as well. Chaplain C. R. Norton had charge of morning program, which included recitations by Mrs. Pearl Moore and Joseph Griffin, songs by members of the Veterans' Glee Club of Los Angeles, an eloquent address by Rev. Clyde Monroe Crist and short reminiscences of army life by Comrades Scudler, Barrett and Hull. In the meantime members of the Women's Relief Corps, who had been foraging throughout the week, had captured the dining room and now announced that "mess" was ready. The old boys found the tables laden with the best the land affords and proceeded to enjoy it.

In the afternoon the boys of '61 put on what might be called a pageant-drama of a campfire back in the days of the Civil War. They bivouacked on the stage in realistic manner, with real campfire and pup tents so small that only their heads or their feet were protected, whichever they chose; they shared army blankets and quarreled when a companion hogged the whole thing, when taps sounded the lights went out and they sang "Tenting Tonight on the Old Camp Ground."

The audience thought this one of the most effective bits in the whole affair, which was all in all so effective that smiles and tears alternated during the whole afternoon.

When reveille sounded in the morning they got up, cheerful or grouchy, according to their several moods and dispositions; the cook had the coffee on to boil and they soon had breakfast.

Good singing, led by Professor Herrendine of Los Angeles and participated in by G. A. R. boys from that city as well as those of this post, was an impressive and enjoyable feature of the occasion.

One of the boys played the bones, which limbered up the veterans to an unbelievable degree, and the songs they sang were the old, old heart songs, such as "Tenting Tonight," "The Grand Army Button" and "Annie Laurie" and "Good Night, Ladies."

The program closed with prayer by Rev. C. R. Norton and the singing of "God Be With You Till We Meet Again."

## HIGH SCHOOL BOYS WIN IN TRACK MEET

The meet between the Intermediate track team and the 120-pound high school team, Friday afternoon, was an interesting event but the score showed that the high school organization was a little too strong for an even contest. N. R. Whytock, Intermediate coach, had charge of the meet and the score follows:

Final score—Intermediate, 11; high school 58.

100 yard dash—Lee (H.), first; Roberts (H.), second; Butts (H.), third. Time, 11 3-5 seconds.

220 yard dash—Lee (H.), first; Roberts (H.), second; Shannon (I.), third. Time, 30 1-5 seconds.

Half mile—Hand (H.), first; Bailey (H.), second; Horri (H.), third. Time, 2 minutes 42 4-5 seconds.

High jump—Kuss (H.), Belts (H.), and T. McClammy (H.), all tied for first. Broad jump—Butts (H.), first; W. Roberts (H.), second; D. Roberts (I.), third. 17 feet 9 inches.

75-yard hurdles—Frazee (H.), first; Muff (I.), second; Lawson (H.), third. Time, 10 4-5 seconds.

Shotput—Team (I.), first; Butts (H.), second; Boehm (I.), third.

Relay won by high school.

## 'UNCLE BOB' TAYLOR OFFICER OF THE DAY

For real good fellowship and the art of genial, genuine interest in one another commend us to the boys and girls of '61.

"Uncle Bob" Taylor, officer of the day of N. P. Banks post, heartily endorses the above pronouncement. The Kensington Club, affiliated with the Women's Relief Corps, learned that Mr. Taylor was getting ready to move into his new house. They wished to give him some token of affection to use in the new home—but the trouble is, they say, most anything they could give wouldn't stay there long for "Bob" Taylor has the habit of giving away everything he has to someone he thinks needs it worse.

Finally, the president of the Kensington Club, Mrs. Juliana Hayes, hit upon a plan for a gift that would "stay put." Every member of the Kensington Club and members of their respective families wrote his name on a block of a, patched quilt, and then these names were worked in red thread. Very appropriately, the color scheme was red, white and blue. Then the ladies of the Kensington Club made the quilt, did the quilting and other necessary sewing—and behold, an album quilt with the facsimile signatures of 59 of "Uncle Bob's" friends!

The artful ladies of the Kensington Club employed a skillful ruse to get Mr. Taylor to come to their meeting last Friday. As his surprise and utter amazement, he was wrapped in the quilt and escorted to the platform, where the president, Mrs. Hayes, made a very witty presentation speech. She explained that, coming here a stranger ten years ago, she naturally sought out the G. A. R. and the Relief Corps the first thing. She heard people talking there about "Bob" Taylor, "Mr. Taylor," "Robert Taylor" and "Uncle Bob Taylor." She asked at various times to have these various Taylors pointed out to her, and found they were not various Taylors at all, but various appellations of one merry-eyed man with a shock of white hair, whom all the relief corps women were in love with; and Mrs. Hayes added that since she believed in the old adage: "When you're in Rome do as the Romans do," she, too, fell in love with Bob Taylor.

In presenting the quilt, she went very cleverly into her speech the names of a number of those whose autographs were embroidered thereon. The quilt, she said, was a magic one. There were on it five Griffins, two large ones and three small ones, to protect Uncle Bob in time of danger; there was an Archer, if he wished to hunt; if he wanted music, there was Moore than enough; if his skies were clouded, the Hayes would soon pass away; there were two Pecks of good-will, a half bushel, pressed down and running over; the fire of friendship always Burns for him and should he desire to travel there was a Brakeman ready on the quilt.

"Uncle Bob" tried to respond, but he couldn't; he says he was "too full for utterance."

Robert Taylor has been officer of the day of one G. A. R. post, or another for 39 years. He has been officer of the day of N. P. Banks post ever since it was organized.

## AL. G. FAULKNER PLACE IS SOLD

The Al. G. Faulkner place on Kenneth road has been sold to Moss & Zach, a Los Angeles jewelry firm. The families of both partners will occupy the house, which is of eight large rooms. There is a very large two-story garage and other outbuildings. There are three acres in the place and two of them are in navel oranges of the finest quality. The yield last season was 500 boxes in addition to those used about the home. The consideration was between \$30,000 and \$40,000, we understand. All the furniture of the house was included in the deal, even the baby grand piano. Mr. and Mrs. Faulkner will make their home in Los Angeles.

## RAINFALL RECORD

The storm which ended Sunday night was productive of millions of dollars' worth of good to the Southland. The most of it went into the ground, so gentle was the fall. The record shows a precipitation of 3.47 inches, which brings the season's total to 12.40 inches. Last year at this time there had been 12.53 inches fall. The season's total was over 16 inches, so there is ample grounds for hope of more rain yet this year.

Mrs. McKee of 130 West Cypress will entertain the Nimble Fingers Club Tuesday evening at 7:30. She will be assisted by Miss Mildred McKee and Miss Margery Gunyon.

## PACKERS-EMPLOYEES HOLD CONFERENCE

(By International News Service) WASHINGTON, March 15.—Secretary of Labor Davis announced today that he is now preparing for a conference here between the packers and their employees to attempt mediation of the difficulties which threaten a strike in the packing industry. No date has been set for the meeting but it will probably be held on Friday.

Secretary Davis said he has received wires from both parties agreeing to his proposal for mediation.

## EDISON'S ADVICE TO YOUNG MEN

Mr. Edison's advice to young men could well be carried into every schoolroom. He said on the subject of success in life: "I cannot give any advice on that subject. If a young man has reached 21 and is dead mentally, no amount of advice, example or experience will ever change him in the slightest. If at some period between 12 and 16 years of age he can become interested in a subject and grow enthusiastic, then he will advance and become a high type of man. If not, his mental machinery will become atrophied and he will be a dead one."

## VALUE OF PARENT-TEACHER ASSOCIATIONS

Members of Glendale Parent-Teacher Associations—and that means the majority of mothers of Glendale and many of the fathers—will be interested in the declaration of Commissioner Claxton, head of our great educational system, who has been investigating the work of Parent-Teacher organizations throughout the United States. As a result of this investigation Commissioner Claxton has made this statement:

"The biggest thing in the nation, so far as I can see, is the fullest possible development and use of Parent-Teacher Associations. An association should be organized in every community in the United States. It is the keystone of a vigorous, virtuous democracy."

## THE VOICE OF THE CHURCH

Rev. O. P. Rider sends the following definition of "The Voice of the Church," by William Hiram Foulkes, which is so comprehensive that it can be appreciated by all denominations, and is as follows:

I create. Spiritual values and the priceless ideals by which men live, and for which they die, are treasures out of my storehouse.

I am the mother of heroes, crowned and uncrowned. The vigor of noblest manhood has been nourished by my divine motherhood. I make weak men strong and help the mighty to be holy.

I speak with assurance in the midst of the strife of tongues. My holy calling is to interpret to the men of today the truth that is neither old nor new. Where others purvey precepts I give abiding principles. My kingdom is in two worlds at once.

I bring good news. My gospel is the only remedy for the need of the whole world. "Though I speak with the tongues of men and of angels," I first had love. I carry upon my heart an atoning cross which is "rooted and grounded" in the heart of God; and whose outstretched arms cover the ends of the earth and reach unto the ends of the ages.

I teach. Righteousness, justice, brotherhood are the alphabet of my language. If men remembered, they would acknowledge me as one who early led them in the paths of truth, from which they have not utterly departed, although they have often turned their backs upon me.

I have an open house of refuge for the oppressed. My ministries to the sick and desolate, to the sorrowing and the stricken, to the bewildered and the cast down, to the sinning and the dying souls of men are "as the stars for the multitude."

I am a guardian of the public peace, a conservator of its abiding interests, a friend of every worthy enterprise, the almoner of innumerable applicants who often take my bounty and scorn the hand that gives. Without the thread of my weaving no financial fabric would endure the test of a day. Deprived of my saving presence the law of the land would become the law of the jungle.

I suffer. The scorn and evil suspicion of those who hate and who do not know me is no harder to bear than the wounds of my friends. The selfishness of many who bear my name, then pitiful pettiness, and then sinful diversions pierce my soul like a sword. I suffer, but I grow strong.

I bring forth noble sons and beautiful daughters. Nursed at my side, at length they go forth to serve in my name. They will not, they cannot, they must not forget the mother who bore them and who lives in their being. Their triumph is my glory. I will be their mother as long as motherhood lasts. They will be my children as long as filial love abides.

I stand. For twenty centuries I have survived through flame and flood. Today, with a heavenly book, which is the Magna Charta of liberty, and without which no nation ever has been or ever will be great; with a Heavenly King, the risen and the coming Christ, with a kingdom enterprise which has the only adequate program for the whole human race, I stand dauntless in the face of wind and tide.

I call you to my heart, O mothers and daughters of men! I thrust you forth, O soldiers of righteousness, unto the ends of the earth on every battlefield of human need, and I build a wall of prayer about your immortal spirits. I will wait for your return. O sons of the travail of my soul, with my altar fires brightly burning. Your sacrifice and mine shall not be in vain; as together, one unbroken mighty army, we shall "march breast forward" through the portals of the dawning day into the new era, our "promised land," the "new earth wherein dwelleth righteousness."

## TRUCK STALLED; HAD NO GASOLINE

(By International News Service)  
MARTINS FERRY, O., March 15.—The aerial truck of the local fire department was unable to respond to an alarm. Someone had stolen the gasoline from the truck's tank since the truck was last used. The driver experienced difficulty in obtaining a supply and did not get it until the fire was almost out.

## 700 LOS ANGELES CHILDREN IN MOVIES

(By International News Service)  
LOS ANGELES, March 15.—Statistics made public by the Board of Education show that nearly 700 boys and girls here obtained permits in the month of January for varying periods in order that they might work in the great motion picture studios. "More children work in motion pictures than in any other industry in Southern California," said Dr. E. J. Lickley of the Board of Education.

## ONE MAN KILLED, TWENTY INJURED

(By International News Service)  
POTTSVILLE, Pa., March 15.—One man was killed and 20 injured Saturday, when a locomotive on the Philadelphia and Reading railroad crashed into a trolley car of the Eastern Pennsylvania at the Westwood station, two miles from here, where the tracks of the two companies cross each other. A. G. Parnell of Minnsville was killed. Three of the injured are reported in a serious condition.

## ONCE ON A TIME

"Once on a time" was a magical phrase, Thrilling with promise of marvelous stories, Tales of the pixies and nixies and fays, Princes and fairyland kinds in their glories; I was a boy, and these chronicles, all of them Bore me away to a mythical clime Ruled by strange wizards, and I was in thrall of them. Once on a time!

Once on a time I was slender and young, Love was enchantment, and life was a dance, Youth was but coin to be squandered and flung, Days were all sunshine and night were romance. Now when I think of those days and the fun of them, When I see youngsters still flush in their prime, I can sigh, "Well, at least I was one of them. Once on a time!"

Once on a time I had wonderful dreams, Made up of rainbows that glowed in the distance; Once I sought life, but today, so it seems, All I have won to is merely existence. This is the fruit of blithe and the merry tales— Middle-aged plodding through workaday grime— Still, thank the Lord, I believed in the fairy tales. Once on a time! Berton Braley in the Saturday Evening Post.

## POULTRYMEN TO MEET AT POMONA

At a big meeting called by Southern California poultrymen to be held at Ganesha Park, Pomona, on Tuesday, April 5, there will be discussed several things of vital importance to the poultry industry of Southern California. Perhaps among these is the possibility of the establishment of a Southern California egg-laying contest. The egg-laying contest now in operation in Santa Cruz and Sonoma counties have proven very successful and there is no reason why, with the good poultry conditions found here in Southern California an egg-laying contest cannot be established which will far surpass anything which has yet been organized in the state. Egg-laying contests have been responsible for the big increase in production recently obtained in Washington and Oregon. The establishment of an egg-laying contest will be under the direction of the newly organized poultry department of the Los Angeles County Farm Bureau, and members of the Agricultural Extension Service are working out plans for the establishment of an egg-laying contest and also other work of the organization. It is hoped to have a big membership in the poultry department as only by this means will there be a possibility of securing a poultry specialist who shall spend his entire time in Los Angeles County or in Southern California.

It is important that there be a large attendance at the meeting at Pomona on April 5. This meeting will be held from eleven to three. There will be a basket lunch, coffee being served by the poultrymen of the Pomona district. All poultrymen of Southern California are cordially invited to be present.

## WHY THE EDITOR LEFT TOWN

Somebody sent the editor of the Pickettown Gazette a few bottles of home brew. The same day he received for publication a wedding announcement and a notice of an auction sale. Here are the results: "Wm. Smith and Miss Lucy Anderson were disposed of at a public auction at my farm one mile east of a beautiful cluster of roses on her breast and two white calves, before a background of farm implements too numerous to mention in the presence of about 70 guests, including two milk cows, six mules and one bobbed. Rev. Jackson tied the nuptial knot with 200 feet of hay rope and the bridal couple left on one good John Deere gang plow for an extended trip with terms to suit purchasers. They will be at home to their friends with one good baby buggy and a few cooking utensils after ten months from date of sale to responsible parties and some 50 chickens."—Exchange.

## Tony Was Expected

Tony is an Italian laborer employed in the construction of a new high street building. The other evening he asked his foreman for a vacation during the following two days.

"Tony, you don't want any vacation," remonstrated the foreman. "All you would do would be to spend all the money you have saved up and come back to work all out of luck."

"Well, boss, I sort of have to go," said Tony. "You see, I'm going to be married and I'd kind of like to be there."—Columbus Dispatch.

## GIRLS WORK WAY THROUGH COLLEGE

(By International News Service)  
CHICAGO, March 15.—Boys always have worked their way through college. Now the co-eds are doing it, too. For despite the drop in the high cost of living, getting a university education still is expensive.

"Nearly 60 per cent of the 7200 students at Northwestern are working their way through school," said President Walter Dill Scott.

"The modern student is a good student. Some say that his father was the best—that is, the fathers do—but the modern boys, and not forgetting the girls, are working their way through college by using their heads. Not so many young men now shovel snow and tend furnaces."

President Scott said a college education was easy to get in these days, because so many people were interesting themselves in education.

Professor Henry G. Gale, dean of the College of Science of the University of Chicago, said 55 per cent of the students there were working their way through school.

"The jazz-hounds greased hair boys and the all-night toddling co-ed are in such a minority at this university that they receive publicity because of their rarity," he declared.

Figures show 55.5 per cent of all the men are paying their way through the University of Illinois entirely or in part. Of this number 9.2 per cent are bearing the entire expense. The remaining 43.7 per cent are earning part of their expense.

According to a survey made by the Pan-Hellenic council from nineteen organizations, it costs approximately \$900 a school year for men students at the University of Illinois. It was found that the real expenses of the average student were from \$750 to \$850. This includes food, clothing, housing, educational expenses and incidentals.

## NEARLY MILLION IS DISTRIBUTED

(Special to the Daily Press)  
SAN FRANCISCO, March 15.—Nearly \$1,000,000 worth of 1921 Government Savings securities have been distributed to banks in the Twelfth Federal Reserve District, the Federal Reserve Bank of San Francisco has announced. This total represents the preliminary shipments which will be augmented, no doubt, by additional consignments during the year.

It is estimated that approximately \$2,000,000 or more in these securities, which include Thrift Stamps, \$1 Treasury Savings Stamps, \$5 War Savings Stamps, and \$25, \$100 and \$1000 Treasury Savings Certificates, are in the hands of postmasters in the seven states of the Twelfth Federal Reserve District and the territories of Alaska and Hawaii. All of the postoffices sell the smaller securities, while some of them handle Treasury Savings Certificates.

The banks throughout the West were recently asked to cooperate more closely during 1921 with the Government in the sale of Savings securities. A letter making the appeal for this cooperation was signed by Governor John U. Calkins, of the Federal Reserve Bank of San Francisco, John S. Drum, President of the American Bankers' Association, and representative bankers from the various states in the Twelfth District.

The new \$1 Treasury Savings Stamps, issued with the advent of 1921, promise a wide popularity. They put the Government Savings movement on a dollar basis as they are exchangeable for the \$5 War Savings Stamp and Treasury Savings Certificates of \$25, \$100 and \$1000 denominations, all of which pay 4 per cent interest, compounded quarterly.

## BODYGUARD IS PROVIDED PREMIER

LONDON, March 15.—Extra body guards were provided for Premier Lloyd George as part of the general new precautions of Scotland Yard against the Sinn Fein violence in London and elsewhere in England.

Information was received at Scotland Yard that Sinn Feiners had been found there was to be a great St. Patrick's Day demonstration and anticipated some outbreak in advance.

The police guard of White Hall, the district occupied by Government buildings, has been made stronger.

## ADMIRAL RODMAN TO BE RELIEVED

WASHINGTON, March 15.—The Secretary of the Navy today refused to confirm or deny a report that the naval forces of the United States are to be concentrated in the Pacific within the next few weeks and leave but a skeleton fleet in the Atlantic.

A naval official stated he knew of no orders for uniting the two fleets in the Pacific but pointed out that basic facilities on the Pacific coast are hardly adequate to meet the demands of the present Pacific fleet.

Secretary Denby also refused to discuss reports that Admiral Rodman is to be relieved of command of the Pacific fleet.

## FACING STRUGGLE FOR SUPREMACY

By EARL C. REEVES

I. N. S. Staff Correspondent

LONDON, March 15.—Allies in war and friends in peace, England and France are shortly to be plunged into a battle for the air supremacy of Europe.

It will be a battle of peace and commerce, but the aim behind it will be development of a peace-time commercial aviation service that shall be capable of instantaneous turning to the uses of war if needs arrives.

Britain has offered a subsidy, comparatively small, for the encouragement of civil aviation. France has now under consideration and, it is understood, completed ready for final approval, a scheme for greatly increased subsidies which, it is feared, will enable the French lines to undercut English lines.

Britain is looking to the airmen to take over some of the responsibilities heretofore borne by its world dominating navy. She is just now keenly discussing ways and means of strengthening the power of her fleet through its "air arm," and of providing in the air the safeguards for her island isolation formerly made safe by her warships, but which, in the late war, was proved to be vulnerable from the skies.

General Skyes is in the forefront of those experts who are urging what is equivalent to "war college" consideration of means of combining the strategy of land and sea and air.

### Race for Air Supremacy

G. Holt Thomas, one of Britain's foremost builders, foresees an international race between England and France for air supremacy over the continent.

"We must use the air busily in peace," he declares, "so that we may have command of it, instantly, in the event of future war, and we can reap all the immediate benefits from, so doing while storing up for ourselves a vast potential source of power."

"Always we are confronted with the smallness of these islands of ours, and the badness of our weather. This means that we are forced to concentrate our energies, at any rate for the time, on those air lines which lead us out of the country, and then onward to the great cities of northern and central Europe.

"It should be our bounden duty to make ourselves paramount on these airways to the continent.

"We are not going to have this field to ourselves. There should be no illusions on that score. The French are intending to make a supreme effort aeronautically this next spring and summer. From this point of view I look upon the immediate future with some apprehension. If British civil aviation is to be put on its feet, then the time is here and now."

## WAGE REDUCTIONS ARE WITHDRAWN

(By International News Service)

NEW YORK, March 15.—Announcement was made by the Erie railroad that wage reductions and a five-day week have been withdrawn and that the old scale will be effective dated from March 1. The road announced that curtailment was necessary and that, beginning today, the company would begin reducing its force 30 per cent, although none of the workers who are members of the "big four" unions will be dropped.

Professor—"So, sir, you said that I was a learned jackass, did you?"  
Freshie—"No sir, I merely remarked that you were a burro of information."

## Equipment for Glendale Daily Press En Route

Word comes from the manufacturer that the Duplex printing press, the Miller saw, casting box and other up-to-date equipment, to be used in making the Daily Press a metropolitan paper, has been shipped and that we may expect the new machinery within the next few days.

The Daily Press keenly feels the need of this long delayed equipment, but the day is not far distant when it will be possible for the Press to issue an edition which will be truly representative of progressive Glendale. Already three linotypes and much other new material have been put in since the Press started the daily, and other equipment will be added as the needs of the paper demand it.

We have had the usual amount of trouble incident to the launching of a daily newspaper, but the various difficulties which confront us are rapidly disappearing and it will not be long until every department of the paper will be able to carry its share of the burden and the Daily Press will become a permanent institution which will render valuable service in the upbuilding of this beautiful and highly favored city.

We appreciate the reception given the paper by an appreciative public, and the liberal patronage and many kind expressions of good-will have caused us to redouble our efforts in making the Daily Press a newspaper of which every citizen can feel proud. The Daily Press is your paper, kind reader, and is always ready to serve you and further your interests along any legitimate line.

## NIGHTMARE VICTIM TAKES HIGH DIVE THEY TELL THE WORLD DOWN SOUTH

(By International News Service)  
DENVER, March 15.—Henry Lettau, thirty-one, has two outstanding characteristics—he is hard-headed and he doesn't like soldiers.

In an attempt to escape, in a dream, from soldiers, who were pursuing him (also in a dream), Henry leaped through the window of his room on the second floor of a lodging house. Although he fell fifteen feet and landed headforemost, Lettau incurred only minor injuries.

C. F. Norred, a special officer, heard a noise in Lettau's room as he was passing the door. Looking through the window he saw Lettau rolling on the floor waving his arms and kicking vigorously. As Norred went to get assistance, he heard a loud crash and found Lettau sitting on the ground outside under the window, moaning.

Lettau had jumped through the window glass and suffered cuts about the head and face from the broken pane. He explained to the police surgeon that it all happened while he was dreaming.

## LITTLE BENNY'S NOTEBOOK

BY LEE PAPE

"We was eating supper last nite and pop sed, I dont want anybody to use the telephone for a while, because I expect an important call eny minnit now, its an out of town customer and I dont want the wire to be bizzzy wen he tries to get me."

And after supper he started to wawk up and down the hall waiting for the fone to ring. Wich it didnt, and pop looked at his watch and then looked at the fone without anything happening and I went around to my cuzzin Arties and wen I got around there I had a good ideer, saying, Hay Artie, lets play out of town customer.

All rite, how? sed Artie, and I sed, Pops home wawking up and down waiting for one to call him up, lets call him up and pretend we're the one. Wich we did me calling up, our number and pop answering the fone saying, Hello hello, whose this? and me disguising my voice like a out of town customer and saying, Hello hello is this William Potts?

Yes, is this you, Mr. Harkins. I can hardly hear you, sed Pop, and I sed, Wate a minnit please, jest a moment, please. And I handed the fone to Artie and Artie sed, Hello hello is this Willyum Potts? and pop sed, It is, whose this, please?

Wate a moment, jest a minnit, sed Artie. And he quick handed me the fone agen, whispering, G, I dont know wat to say, and I sed, Hello hetro is this Willyum Potts?

Being the only thing I could think of, and pop sed, Yes, confound it, say, who is this enyway? Sounding as if he was starting to think he had herd my voice before suniwares and I sed, Wate a minnit, jest a second. And I quick hung up, saying, Heck, gosh, I wonder if he thinks it was me?

Wich I kepp on wondering till I got home and then I stopped wondering on account of finding out for sure, wich it would of bin less painfull to of jest kepp on wondering.

### THE SPORTING INSTINCT

Johnny liked ice-cream, but he drew the line at turning the freezer. One day when his mother returned home she was agreeably surprised to find him working away at the crank as though his life depended upon it. "I don't see how you get him to turn the freezer," she said to her husband. "I offered him a dime to do it."

"You didn't go at it in the right way, my dear," replied the husband. "I bet him a nickel he couldn't turn it for half an hour."—The Argonaut (San Francisco).

(By International News Service)

NEW ORLEANS, La., March 15.—Fight promoters in this town certainly believe in advertising. The other night a terrific blast of jazz greeted us as we strolled through the lobby of the hotel. Our first thought was that the inauguration parade was passing up St. Charles street; our second choice was that a celebration was on because prohibition was declared off.

Rushing out into the balmy air we piped a flivver loaded to the guard rails with musicians and on its sides a sign reading "BIG FIGHT TO NIGHT."

Didn't those boys whoop her up? You'd think that Hen Ford and Sam Untermyer were to mingle instead of two local pugs.

Tex Rickard—take care—

### Big Things in Town

New Orleans is a big joint. They have big things down here. They've got a big river, big holes in the streets, they're building the Hibernia bank, the biggest south of New York, and they grow big frogs.

A frog's leg here resembles a leg of lamb. What they feed them on and where they grow is a mystery. If they grow in the swamps then the swamps are the biggest in the world.

After lamping an order of frog's legs you'd be willing to bet that they came from the Gulf of Mexico.

If the legs are any tip as to the size of the frog, then it's a man's battle to catch them.

A frog hunter must be brave indeed.

Let one of those birds get the scissors hold on a hunter and the latter's a goner.

Joe Stetcher has nothing on them. The only way to tell a New Orleans frog from a mountain lion is to wait for a noise. If it croaks it's a frog.

### A New Orleans Cold Spell

The other night the temperature here lingered around 48. In New York the boys would be out in the park in their shirt sleeves singing "In the Good Old Summer Time." Not here, however. A special cop—a watchman in a jewelry store on Canal street, who was on duty that night had on a big army overcoat, wollen mittens and overshoes. In the doorway where he did sentry duty was an oil stove burning to heat the band.

The poor bloke was chilled to the bone. He mumbled something about Washington at Valley Forge having it soft.

An Indian from Oklahoma just blew into town with the world's greatest trick skimmer. It's a cap. It has a design on it in blue, pink and green. He now leads them all.

## THE LEVER ACT IS UNCONSTITUTIONAL

(By International News Service)

WASHINGTON, March 15.—The attorney general, in accordance with the decisions of the United States supreme court holding the anti-profiteering sections of the Lever act unconstitutional, issued orders to all district attorneys to dismiss prosecutions now pending under this law. The order will affect about 150 cases of alleged coal profiteers and about 350 cases of alleged profiteering in foodstuffs.

## East Broadway Merchants Show Progressive Spirit

That East Broadway merchants are always to the front in matters of business development and progress is becoming more apparent every day, and the casual observer only needs to visit this rapidly growing business center to fully realize the above assertion.

Some one has said that if you build your shop in the wilderness and do things a little better than the other fellow the world will make a beaten path to your door. East Broadway merchants are fully imbued with this idea and are trying to "do things a little better than our neighboring cities," and judging from the increased business received one is led to believe they are making good. The advertisements on this page represent only a few of the live wires on Glendale's East Broadway who believe that the man who has a store worth while should advertise liberally in the local papers. Every merchant and business man who is represented on this page can be depended upon to give the public a square deal. The Daily Press joins these merchants in an invitation for you to visit their stores.

### ELDER WESTPHAL VISITS BROTHER

Comes From Santiago de  
Chile, Where Climate Is  
Quite Californian

Elder F. H. Westphal, brother of Dr. Westphal of the Glendale Sanitarium and Hospital, has just returned to this country from Chile, South America, accompanied by his two daughters and his wife, who is in ill health and felt the need of a change of climate. The elder, who is also a physician, has been engaged in missionary work at Santiago and also at Valparaiso. The city last named suffered terribly in the great Chilean earthquakes, but the damage has been almost wholly repaired by the rebuilding of the town, now a very beautiful and modern city. The situation of Chile is much like that of California, a narrow strip bordering the Pacific, but considerably longer than California and affording even more diversity of climate. Santiago is quite similar in its temperature to California. The elder has a son who is also a doctor, engaged in practice in the Argentine.

### LISTEN! TWO PICNICS! IDAHO AND UTAH

Here's to all the people from either Utah or Idaho with a warm invitation to come right out to Sycamore Grove Park, Los Angeles, Saturday, March 26, and spend the day with old friends. Bring your baskets with you. Hot coffee will be supplied. The county registers will enable you to find old friends. About 2 o'clock there will be programs for both states. Hon. H. G. Redwine will preside for Idaho and Hon. Verne Rapp for Utah. Pass the news along to as many as you can. Hundreds have lived in both states and will be interested in both picnics.

### Income Tax Declines

Income and excess profits taxes collected by the government in December fell off by more than \$246,000,000, as compared with December, 1919, and for the first half of the fiscal year collections declined by more than \$410,000,000, as against the corresponding period of the previous year, according to figures made public by the bureau of internal revenue at Washington. Collections for December amounted to \$650,613,510, against \$896,678,929 in December, 1919, while for the six months ending with December the total was \$1,583,389,516, compared with \$1,994,123,836 in 1919.

### Husband's Pockets His Own

WASHINGTON—Has a married woman an "inalienable right" to go through her husband's pockets?  
"No!" declared a grand jury of married men here in returning an indictment against Mrs. Sarah H. Morrison, plaintiff in a divorce proceeding on a charge of removing the contents of a letter addressed to her husband from "the other woman."

Mrs. Morrison is technically charged with having violated the federal postal regulations.

Mrs. Morrison's defense will be based on the "inalienable right of a married woman to go through her husband's pockets," according to her attorney—Cleveland Plain Dealer.

### JOE FUREY TO SERVE 20 YEARS

Pleading guilty to defrauding Frank Norfleet, a Texas, rancher, out of \$45,000 by a fake stock deal, Joe Furey, of Los Angeles, was yesterday sentenced at Fort Worth to serve 20 years in the Texas penitentiary.

Furey was arrested after a spectacular chase by his victim over a large part of the United States. He told Texas officials that Deputy Sheriffs Walter Lips and W. J. Anderson of Los Angeles had accepted \$12,000 from him to allow him to escape after they had arrested him in Glendale. Lips and Anderson were arrested on charges of bribery and extortion. They pleaded not guilty and their trial was set by Judge Houser yesterday, for May 16.

### WALTER C. FISHER TO MAKE ADDRESS

The membership forum luncheon of the Chamber of Commerce will take place at 12 o'clock, Thursday, March 17. The speaker of the day is Walter C. Fisher, an attorney of Los Angeles and Burbank. Mr. Fisher has an interesting message, and the board of directors urge that as many members as possible attend. It is also requested that those desiring to attend notify the secretary of the Chamber of Commerce immediately in order that proper reservations may be made.

### BIRTHDAY SURPRISE FOR MRS. CASSELMAN

In recognition of her birthday, Mrs. Charles Casselman of 451 West Elk street, was delightfully surprised last Saturday night when Mr. and Mrs. Coryell and Mrs. Icher of Burbank arrived unexpectedly to spend the evening and her daughter and son-in-law, Mr. and Mrs. John Lampert. The company also included William Caulkins, cousin of Mrs. Casselman, and his wife, from Fayette, Iowa, who are guests in the Casselman home.

### SANITARIUM NOTES

Miss Meta Herr, an experienced graduate nurse who has recently come to Glendale from South America, has been placed in charge of the nurses' dormitories as preceptor.

Dr. Westphal has just returned from a business trip to St. Helena, Sacramento and San Diego. His special objective was the annual meeting at the St. Helena Sanitarium.

### NEW HOSPITAL BREEDS ROMANCE

H. J. Eggers and Mrs. M. A. Lord Discover Affinity and Quietly Wed

H. J. Eggers, the well-known contractor, who was superintendent of construction work on the new hospital unit and nurses' dormitory for the Glendale Sanitarium and Hospital, and Mrs. M. A. Lord, who until recently was employed at the Sanitarium, are now of one name and are receiving the somewhat belated congratulations of their friends. While the hospital building was going on, all unknown, a romance budded and blossomed into a wedding which was quietly celebrated at Ventura on February 23. Even after their return to Glendale it did not come to the public notice until friends received cards of announcement stating that Mr. and Mrs. H. J. Eggers would be "at home" to their friends after March 14 at 322 North Isabel street. Miss Elsie Lord, daughter of the bride, is a senior nurse in the Sanitarium Training School.

### CITIZEN QUERIES CHARTER POWERS

Editor, Glendale Press:

If you will kindly allow me space in your esteemed paper, I would beg to draw the attention of the Glendale citizens to the proposed charter to be voted upon the 29th day of this month.

Without going into the merits or demerits of this charter, on perusal of same I find the following:

"Section 5. Certain powers and duties enumerated. The council shall: 1. Judge of the qualifications of its members, and of all election returns."

The city administration has for free distribution copies of the charter in pamphlet form at the city hall, and above section and paragraph are found on page 5. Thanking you for your courtesy, I remain,

Yours very respectfully,  
EMIL E. FRAM.  
348 W. Windsor road.

### NEW OFFICE ESTABLISHED

Albert Vack, a graduate of the Eclectic College of Chiropractic, Los Angeles, said to be the most modern chiropractic college in the west, is a newcomer in Glendale.

Mr. Vack has established an office at the corner of Broadway and Maryland avenue with an entrance on the latter street, where he is now ready to begin the practice of chiropractic.

### BROADWAY P.-T. A.

The Broadway Parent-Teacher meeting will be held Thursday of the present week at 2:30 p. m. Miss Jenkins of Los Angeles will make the address of the afternoon. Her theme will be, "The Foundation of the Parent-Teacher Association," and she is said to be a charming speaker.

### GLENDALE'S LATEST BUSINESS CONCERN

Watts & Easterday, stationery and office supplies, is one of Glendale's newest business concerns. Their store is located at 204 East Broadway where they have put in a stock of box paper, fancy stationery and school and office supplies. Their window shows an attractive display and the new firm bids fair to be a valuable addition to Glendale's business life.

T. E. Watts, for some time a resident of Glendale, is one of the members of the firm, and Van Easterday, the other member, is a newcomer from Urbana, Illinois.

Messrs. Watts & Easterday are enterprising young men who will no doubt build up a business that will do credit to the city.

### JOE ON, JEHOSEPHAT!

Road gets rougher every mile;  
(Chuck!) Joe on, Jehosephat, an' show some style.  
Mule's gone lame, an' the hens won't lay;

Corn's way down, an' wheat don't pay;  
Hogs no better, steers too cheap;  
Cow's quit milkin', meat won't keep;  
Oats all heated, spuds all froze;  
Fruit crop's busted, wind still blows;  
Sheep seem puny, an' I'll be durned  
Rye field's flooded an' the hay stacks burned!

Looks some gloomy, I'll admit—  
(Chuck!) Joe on, Jehosephat, we ain't down yet.

Coal's in high an' crops in low;  
Rail rates doubled, got no show;  
Money's tighter, morals loose;  
Bound to git us—what's the use?  
Sun's not shinin' as it should;  
Moon ain't lightin' like it could;  
Air seems heavy; water punk;  
Tests yer mettle, shows yer spunk;  
No use stoppin' to debate—  
(Chuck!) Joe on, Jehosephat, it's gettin' late.

Wheels all wobble; axle's bent;  
Dashboard's broken; top all rent;  
One shaft splintered; tother sags;  
Seat's all busted; end-gate drags;  
May hang t'gether—believe it will;  
Careful drivin' 'll make it still;  
Roads some better, not so rough—  
TROT! Gosh ding ye! That's the stuff.  
Old trap's movin' right good speed—  
(Chuck!) Joe on, Jehosephat, you're some old steed.

Road's smoothed out till it don't seem true—  
(Chuck!) Joe on, Jehosephat, you pulled us through!  
—Griff Crawford in the Gloom Chaser.

### THINK

When you think of Pullman, you think of sleep.  
When you think of Armour, you think of Sheep.

Think of Herman Nelson and you think of Money.  
Then think of Charlie Chaplin and you'll think of something funny.

And, as all these wheels go 'round and 'round,

Where all great things are stored,  
Just think of Jesse Smith once without  
Thinking of a Ford.

### EASY EXPLANATION

"I say, Stalker," he said, "you remember you told me you had hunted tigers in West Africa? Well, Captain Smith tells me there are no tigers there."

"Quite right, quite right," said Stalker, blandly, "I killed them all."

### PISTOL BATTLE ON ROOF OF THEATER

(By International News Service)  
CHICAGO, March 15.—Henry Miekke, 18, was shot and killed and two companions were captured today in a pistol battle on the roof of a motion picture theatre. Miekke and his companions were surprised by three policemen as they were trying to force an entrance to the theatre. Miekke was shot as he was leaning over the coping, firing at the officers who were crawling up a ladder.

### HIGH SCHOOL P.-T. A.

The High School Parent-Teacher Association will meet Wednesday of the present week in the cafeteria at 3:15. The four candidates for high school trusteeships will address the association and Superintendent R. D. White will speak on the proposed recreation center for which citizens are asked to vote bonds on March 29. Mrs. Kemper Campbell will talk on the proposed change in the juvenile court law.

### MOST PERFECT FOOT IN CHICAGO

(By International News Service)  
CHICAGO, March 15.—The most perfect foot in Chicago has been found. It belongs to Miss Elizabeth Chapman, 19-year-old blonde, who wears a 4½ size shoe, and whose prize "dog" measures just eight inches in length. It is three inches wide. The outer arch makes an impression of 1 1/4 inches and the heel at the widest part is only two inches.

Miss Chapman won her title in the Beauty Mart foot contest at the coliseum, in which 6000 pairs of prize feet were exhibited. The judges were Drs. William M. Scholl, H. J. Crane and J. H. Wilhite.

The coliseum contest is the fifth in which Miss Chapman has carried off the prize. She is a student and despite her perfect feet has no desire to go on the stage, she declares. Miss Ruth Donahue, a Peoria, Illinois, student, took second prize in the coliseum contest.

BIG INDUSTRY  
FOR GLENDALE

(Continued from page 1)

local investors, and this they are now endeavoring to do. Subscriptions to date total about \$5000, with the interest constantly increasing. Charles Guthrie is one of the most enthusiastic promoters and John Gray is ardently backing the project, which will employ many men and bring big business to Glendale, if located here.

John W. Henderson, who will be in charge of construction and operation when the plant is located, has many interesting facts to give in regard to this almost ideal building material, which, while weather proof and fire proof, costs but little more than lumber construction. When the element of permanence is taken into account there is no comparison. Hydro-stone means buildings comparable to the pyramids of Egypt in their durability, buildings that are beautiful and imperishable, with an exterior that calls for no paint and which can be washed like any other hard surface when begrimed with smoke or dust.

These are reasons why local men are so enthused over the project and so anxious that it shall not be lured from Glendale by the tempting offers it is receiving from Universal City and other localities in Southern California where its tremendous possibilities are realized.

The main headquarters for the company in the United States are in Chicago. In proof that it is no untried scheme, although new to this coast, Mr. Henderson pointed to the fact that the city of Halifax, destroyed by an explosion of T. N. T. during the world war, has been reconstructed with hydro-stone imported from Chicago. Eight thousand buildings were erected of this material, which have made it a very beautiful and in some respects a unique modern city, and yet the cost, Mr. Henderson says, exceeded by only 5 per cent the cost of wood construction.

In addition to the hydro-stone hollow blocks the company will also manufacture brick of similar ingredients; to be used for the facing of buildings, for fireplaces and other interior decoration. Mr. Henderson claims these can be sold at a figure which will compare with enameled brick, now bringing \$110 to \$150 per thousand, and they will have the advantage of being more substantial in character and more artistic.

The product will be employed in still another way, viz., in the making of ornamental garden urns, which are in great demand by landscape gardeners.

Mr. Henderson and Mr. Park stated that the Glendale plant, if it is established, will be the parent company for Southern California, and that other subsidiary plants will probably be established at San Diego, Orange, San Bernardino and Riverside. Glendale is so fortunately located, both with reference to the supplies of needed materials and close connections with Los Angeles by train and truck, that it is, in their opinion, an ideal situation for the parent plant.

Continuous performances are given at the Palace Grand, with five shows daily at 1, 3, 5, 7 and 9 p. m.

President Wilson gets \$40,000 for the Nobel peace prize; Jack Dempsey gets \$100,000 for a single fight. Why be a pacifist?—Columbus Dispatch.
